

ICYNENE LD-C-50®

Proven Performance – The Light Density Leader

ICYNENE LD-C-50 is the product that made the Icynene name synonymous with superior quality, open-celled, 0.5lb., light density spray foam insulation. ICYNENE LD-C-50 has been used in thousands of residential and commercial projects for over 20 years and is the industry benchmark for quality and innovation by which all other light density insulation products should be judged.

A Winning Investment

Those that choose to invest in ICYNENE LD-C-50 not only experience the superior comfort offered by this insulation and air barrier material but the added benefit of saving on heating and cooling costs by up to 50%. Furthermore, if you scan the local property re-sale listings, you will often find that Icynene® has the prestigious distinction of being listed as a selling feature of the home. So even though it's a product hidden behind walls, ceilings, rim joists and floors, rest assured an Icynene investment is one that pays dividends each and every month.

Global Product Approvals

Icynene products have been rigorously tested and verified by various national and international product approval agencies such as:

ICC-ES: International Code Council Evaluation Service (USA)

CCMC: The Canadian Construction Materials Centre

BBA: The British Board of Agrément (United Kingdom)

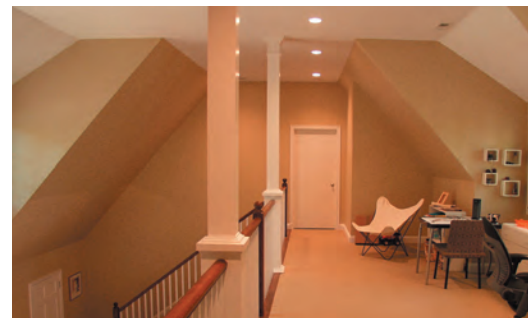

ATec: Avis Technique (France)

EEA: European Economic Area **CE**

VTT: European Technical Approval

Environmental Leadership

- Icynene spray foam insulation products have been evaluated and listed in the **NAHB** Research Center **Green Approved** products program.
- Icynene spray foam insulation products have been evaluated and listed in the Collaborative for High Performance Schools program (**CHPS**).
- By reducing energy consumption and making buildings more sustainable, Icynene is having a positive impact on our planet.

Fulfilling Choices

Icynene offers fulfilling solutions through a portfolio of advanced and responsible building envelope products that anticipate changing design requirements, market conditions and customer needs.

Ideal For Residential and Commercial Applications, Icynene Solutions Provide:

Increased Energy Efficiency

Icynene products give you both insulating R-value and air barrier performance – allowing you to minimize 2 major sources of heat loss/gain. The result can be a reduction in heating and cooling costs of up to 50%.

Improved Indoor Air Quality

Icynene's air-sealing capabilities minimizes the entry of airborne irritants such as allergens, drafts or humidity. Combined with proper mechanical ventilation, Icynene products assist occupants in controlling the quality of the indoor air that they breathe.

Contribution to LEED points

Icynene spray foam insulation solutions are vital contributors towards a home or building obtaining critical LEED (Leadership in Energy and Environmental Design) points.

Always refer to the specification sheets on Icynene.com for the most current information on the complete portfolio of Icynene products.
